

**URMI ENVIRO TECH**

*A total solution to all Environmental and GIS issues*

*Our Services Include :*

*Environment and Wastewater Management*

*Geographic Information Systems (GIS)*

*Rainwater Harvesting*

*Statistical Analysis and Data Management*

*Regd. Office:*

E 304, Magnolia Enclave, Nahar Amrit Shakti, Chandivali, Andheri (East), Mumbai – 400 072, Telefax: 022-2847 1830

*Corporate Office:*

B 2065, Oberai Garden Estate, Near Chandivali Studio, Chandivali, Andheri (East), Mumbai – 400 072,  
Tel.: 022-4015 4060, Telefax: 022-2847 7665

*Environmental considerations are increasingly becoming integral factors in economic decision making. Demonstrating environmental sensitivity in core business strategies and activities serve as foundation for achieving sustainable growth and lasting competitiveness.*

## *Our Services Include:*

**Environmental consultancy:** UET offers consultancy services pertaining to total environmental management

**Pollution Control at Source:** Pollutants can come to wastewater through leakages, spillages, process wash, floor wash etc. Source control is the process of finding and then stopping or reducing increases of pollution to waste streams. Prevention of pollutants to enter the wastewater stream is necessary to reduce pollution load there by reducing the cost of treatment. UET offers the services of identifying high / low pollution load streams and suggest treatment, recycle and reuse of such streams.

**Industrial Wastewater Treatment:** Design and installation of effluent treatment plants. UET's main focus is to recycle and reuse the treated wastewater up to maximum possible using advanced treatment system such as Ultra filtration, Reverse Osmosis etc.

**Domestic Wastewater Treatment:** Water coming out of kitchen (Grey Water), bathrooms and toilet blocks (Black Water) can be recycled and reused for gardening purpose using reed bed and vermiculture technology.

**Environmental Training:** Training is an integral part of knowledge enhancement. UET offers training on wastewater treatment systems, total environmental management, pollution acts / laws and water conservation practices.

**Solid waste Management:** Solid waste generating from canteen and garden maintenance work can be composed using vermiculture technology and utilized as organic fertilizer.

**Consent Management:** UET extends guidance for obtaining consent for new industry establishment and for its operation.

**Environmental Modeling:** Univariate and Multivariate statistical models are used to establish source of pollution, zone of pollution, level of pollution and controlling factors of pollutants. Dispersion modeling of various air pollutants is carried out using standard algorithms.

### Regd. Office:

E 304, Magnolia Enclave, Nahar Amrit Shakti, Chandivali, Andheri (East), Mumbai – 400 072, Telefax: 022-2847 1830

### Corporate Office:

B 2065, Oberai Garden Estate, Near Chandivali Studio, Chandivali, Andheri (East), Mumbai – 400 072, Tel.: 022-4015 4060, Telefax: 022-2847 7665

# Geographic Information Systems (GIS)

**UET's multi-disciplinary team offers specialist GIS expertise involving spatial data management. We are specialized in the following GIS activities:**

- Needs Analysis
- Database Design
- Data Integration
- Attribute attachment
- Spatial Analysis
- Data Modeling
- Buffering
- Mapping/Output
- Technical Support
- Guidance on Software and Hardware procurement
- Training

**UET provides GIS solutions for the following major Target Areas:**

- **Utility:** Energy (Power & Gas), Telecom, Water Distribution, Sewerage Management
- **Municipal and Government:** Environmental Impact Assessment, Social and Demographic Data Analysis, Urban Planning, Transportation Planning, Traffic Management, Land Records Management, Emergency Response facility centers management
- **Logistics and Transportation:** Vehicle Tracking, Route and Network Analysis, and Supply Chain Management
- **Marketing:** Business GIS, Market Analysis, Target Analysis, Growth Analysis, Customer Evaluation, Distribution Network Planning.
- **Ground Water Prospecting**
- **Water Shed Management**
- **Natural Resources Management**

**Regd. Office:**

E 304, Magnolia Enclave, Nahar Amrit Shakti, Chandivali, Andheri (East), Mumbai – 400 072, Telefax: 022-2847 1830

**Corporate Office:**

B 2065, Oberai Garden Estate, Near Chandivali Studio, Chandivali, Andheri (East), Mumbai – 400 072, Tel.: 022-4015 4060, Telefax: 022-2847 7665

**UET provides cost effective solutions for rainwater harvesting. Following are the list of activities we are specialized in:**

- Rooftop Collection - Individual Houses and Societies
- Harvesting from the Premises of Individual and Societies
- Recharge of Open / Dug Well
- Recharge of Ground Water / Bore well
- Collection in tanks for immediate use
- Collection of water for future use
- Design and Installation of Rainwater Harvesting System

### **Other Activities include**

- Office Automation
- Gardening and Horticulture Development
- Statistical Analysis and Data Management
